

Nursery Industry Development Transition Project

MONTHLY PROGRESS REPORT No.20.

Implementing agency: AFGHANISTAN NATIONAL NURSERY GROWERS ORGANIZATION (ANNGO)

Contract: DCI-ASIE/2012/295-861

Europe Aid ID: AF-2012-AWA-1004650537

Reporting month: March 2014

Name/ Title: Mohd Karim Kashmiri Acting General Manager

GENERAL ACTIVITIES INCLUDING ADMINISTRATION & LOGISTICS		
Date / location	Description of activities	Remarks
1/3/2014. Kabul	Managing ANNGO staff work plan for the month of March 2014.	
2/3/2014 Kabul	Coordination meeting with Ms. Enrica ANHDO/RI Nursery Industry Project Manager and all ANNGO technical staff got information from IR/ANHDO Programmes	
3/3/2014 Kabul MAIL Training Hall	Participated in National Horticulture Policy workshop and some comments point out from ANNGO side during the workshop	
4-5/3/2014 Kabul ANNGO office	ANNGO executive Board meeting, the main issues as follow: 1. ANHDO/RI SO1 programme for ANNGO explained by Ms.Enrica Project Manager 2. ANNGO distribution planting materials for NGAs in 2014 3. ANNGO third edition Catalogue 4. Coordination Meetings with NHLP and other relatives NGOs 5. ANNGO visibilities (Billboards in 4 entrance Doors of Kabul) 6. ANNGO Mini Grants to NGAs 7. Plan for Study Tour to India 8. Resignation of Ms.Sozaan accountant, book keeper and supporting Administrative	
7-10/3/2014 Kabul	Work on revision of ANNGO budget	
12/ 3/2014 Kabul Serina	ŭ	

ANNGO-Monthly Report. Month.....March......2014

Hotel	in Serina Hotel, From ANNGO side G.M discussed about	
	almond sapling production and production of ornamental	
	through NGAs.	
15/3/2014 Kabu MAIL	Participated in submission of first Registered National list of	
Training Hall	fruits to MAIL and I present form ANNGO side about	
	regulatory system, achievements and future plan of ANNGO	
	for participators	
16/3/2014 Kabul	Final Meeting with Ms.Enrica regarding field managers'	
	recruitment for NGAs.	
17/3/2014 Kabul	Participated in water sheet Management workshop which	Venue: Inter Continental
	provide by Forestry Department of MAIL, Concern,	Hotel
	AfghanAid and AKF.	
	ANNGO G.M briefly explained ANNGO activities to	
	attendees as well as ANNGO third edition catalogue	
	distributed to participants.	
19/3/2014 Kabul	Meeting and discussions regarding recruitments of Field	
	Managers for NGAs.	
	Participant: Ms Enrica ANHDO/RI Project Manager	
	ANNGO chairman and ANNGO Staff.	
	During the meeting some issues adding For example term of	
	references of NGAs Field Managers.	
23 /3/2014 Kabul	Planning to take samples from MSNs of NGAs for the	
	purpose of virus, bacteria and fungus testing by Bio	
	technology Lab.	
24 – 25/3/2014 Kabul	Work on EC Audit Report of ANNGO	
26/3/2014 Kabul	Coordination Meeting with Mr.V.Hamid form Concern NGO	
	regarding linking and collaboration of between ANNGO and	
	Concern NGO and connection of Kunduz, Takhar and	
	Badakhshan NGAs and providing Information regarding	
	certified fruit saplings and forestry saplings	
29/3/2014 Kabul	Internal staff meeting	Taken results of infected
	Field Manager recruitments for NGAs and training	Almond saplings by
	2. ANNGO Mini Grant to NGAs and eligibility criteria	Nematodes from Bio
	for given grants to them	technology Lab
	3. MADERA contribution for ANNGO visibilities and	
	advertising.	
	4. Finalizing problems almond saplings which NGAs	
	received form Kunduz and Mazar Centres	
	received form Runduz and Mazar Centres	
REGULATORY SERVICES	, INSPECTION, LABEL DISTRIBUTION	
Date / location	Description of activities	Remarks
1/3/2014 Kabul	Kandahar travel report preparation	Noorajan Sadat Senior
		Field Inspector
2-5/3/2014 Kabul	Lifting and packaging Badam Bagh PHDC saplings for the	
	purpose of MSNs for NGAs	
8-12/3/2014 Kabul	NGAs report filing and management, given by field officers	
15-17 Kandahar	Travel to Kandahar, Participation in the funeral ceremony	
	procedure of Ghaus Muhammad Kandahar PHDC	
-		

ANNGO-Monthly Report. Month.....March......2014

	Horticulturist and Return to Kabul	
18 Kabul	Office work	
18-19 Kabul	Internal Technical Staff meeting with Enrical Project Manager of Nursery Industry and ANNGO board team leader	Participant: ANNGO technical staff, ANNGO Board chairman and Project Manager of Nursery Industry
25-30/3/2014 Kabul	Bud sold data entry	
31/3/2014 Kabul	Lifting Apple root stock in PHDC at badam Bagh, Kabul	
1/3/2014Mazar	Distribution of Saplings as a MSNs from Mazar PHDC to	Nazifullah Huseini Senior
	Chonghar, Takhar, Kunduz and Imam e Qutiba NGAs	Field Inspector
2-8/3/2014Kabul	Lifting and packing of saplings in Kabul PHDC for the purpose of MSNs also the saplings will be used for the propagation of certified planting material. Saplings packing in Kabul PHDC for the MSN owners and has been tagged labels on the bags. According to the list all packed saplings have been distributed to the NGAs.	
9/3/2014 Kabul	Translated Questionnaires for Field manager examination or test	
10/3/2014Kabul	Worked on the budwood sell data and kept hard copy in files.	
12/3/2014	Participated field officers' evaluation test and checked their	
Kabul	test papers.	
13/3/2014 Kabul	Set up of banners, pictures and catalogues in the MAIL for presentation of National collection.	
14-16/3/2014 Kabul	Takhar, Kunduz, Imami Qutiba, Chonghar, Khulm, Umulbilad and Laghman NGAs' bud sold and certification forms checked and kept in files	
17/3/2014 Kabul	Participated watershed management workshop which held by Concern.	
18/3/2014 Kabul	Worked on those labels and fruit pictures which will be used in Farmer day or (Nowroz).	
19/3/2014 Kabul	Participated in the meeting with Enrica project manager of nursery industry ANHDO/RI.	
23/3/2014 Kabul	Maidan NGA's bud sold data enter has been done.	
24/3/2014 Kabul	Visited ANNGO Visibility big posters fixed in Billboard in Four entrance door of Kabul and took Pictures of them.	
25-27/3/2014 Kabul	lami Qutiba, Laghman Chonghar, Khulm, Umulbilad, Badakhshan Umulbilad and Bagram NGAs' bud sold data entered to the computer.	
31/3/2014 Kabul	Lifting of rootstocks from Kabul PHDC for distribution purpose to NGAs as a stoolbed. NC, TECHNICAL INSPECTIONS, MOTHER PLANTS, MSNs,	
	_	
Date / location	Description of activities	Remarks
1/3/2014Kabul	Monthly Report and time sheets	
2/3/2014Sorobi district of	Meeting with Relief International for the sample collection	
Kabul	from MSNs from species like citrus, stone fruit and pome	

	Table 2017 (1977)	
	fruits. The Bio tech lab will also collect samples for fungal	
	and bacterial diseases. The same day went to sorobi to	
	follow up the activities for park. Weeds had started growing	
	and nursery of cuttings was established.	
3/3/2014 Kabul	Rearranging the allocation of rootstocks	
4-5/3/2014 Kabul	ANNGO board meeting day 1 & 2, ANNGO board decided	
	that ANHDO should provide grantee letter of the mother	
	trees distributed by to NGAs. The grantee letter should tell	
	us that the mother trees are true-to-type and free of	
	diseases. The board also requested TA staff for purchase of	
	pruning tools for NGAs and arrange a study tour to India as	
	soon as possible.	
9-10/03/2014 Kabul	Updating the distribution of saplings. Attached will find the detailed list.	
12/03/2014 Kabul	Workshop- EU support to capacitate MAIL in transition for	
	sustainable public services delivery.PHDP2 team leader	
	presented ANNGO and ANHDO more details	
15/03/2014 Kabul	Follow up planting and updates of new MSNs with NGAs.	
	ANNGO is missing the field staff while the MSNs planting	
	programme was in progress	
16/03/2014 Kabul	Meeting for Field Officers recruitment	
17-18/3/2014Jalalabad	Citrus Promotion Group Meeting. The details are as follows;	On 18 March returned to
	Venue: PHDC-JAL	Kabul
	Participants:	
	NVDA director started the meeting with expressing the	
	importance of the citrus promotion group meetings. And he	
	added that he had a meeting with the minister after the	
	presentation of the NC register workshop, the minster was	
	really happy and impressed by the activities of PHDP,	
	ANHDO and ANNGO.	
	1. CTV campaign planning	
	Since the past few years we are conducting the CTV	
	campaign and have the results that CTV is there. And for	
	2014 there is a plan to do the CTV campaign once gain but	
	this time there are some doubts about the seriousness of	
	the CTV because previously positive trees are still alive and	
	they are looking healthy. We need to investigate and find	
	out the strain of the CTV which exist in Afghanistan. As Dr.	
	Shams explained that in some cases the mild strain of the	
	CTV is useful for cross protection which means the mild	
	strains can stop the sever strains and gives the trees	
	strength.	
	It has been decided that we collect samples from the CTV	
	positive trees and test them again in Badam bagh PBTL	
	then the CTV positive sample should be send abroad for	
	To decrease the company of the compa	
	further description of the CTV strains. Meanwhile we will continue the investigation in the area and this might include	

some trips to neighbouring countries.

Still it is not clear why the CTV positive trees are still in good condition. Either the CTV strain is mild or the rootstock (the sour orange) used in those trees is tolerant to CTV somehow.

During the discussion Mr. Hedayat Omerkhel suggested that if we give priority to other defects of the rootstocks rather than CTV "most of the newly introduced rootstocks (i.e volkamer lemon) are cold sensitive while sour orange is cold hardy, recently in many nurseries thy lost those saplings grafted on rough lemon and volkamer rootstocks".

During the discussion the members requested ANNGO and ANHDO to release the list of recommended varieties along with the rootstocks lists which will help nursery growers to produce enough citrus certified saplings. The reply was that this task is under research and we have trials of rootstocks and we are getting results from the national collection. The information and results of the national collection and the rootstock trial is shared between stakeholders time to time. And finally one day there will be a formal list of recommended commercial varieties and the rootstocks.

Anyway the CTV research and investigation is ongoing thus the citrus rootstock strategy/rules will remain the same.

2. Introduction to the new EU funded citrus industry development project/ANHDO/RI

The project was briefly introduced by the project manager and the CPG members were happy hearing about this project.

During the introduction it has been discovered that NHLP is establishing some demonstration orchards and the citrus project SO4 will support NHLP in this activity.

3. How NGAs can supply the required amount of citrus certified saplings with reasonable prices?

The organizations working for the development of citrus industry require more certified saplings than what is produced by NGAs and they need the prices to be reasonable otherwise the farmers won't be able to pay for certified saplings and they will start planting un-certified saplings. The NGAs says that they can provide the saplings in reasonable prices if the organizations/ projects provide them a list of varieties and order them at least one or two years before. However this is not an easy job for the

orders but still we all will work on that to make sure the NGAs produce the amount of saplings demanded each year. 4. Updates of the citrus MSNs. ANNGO and ANHDO explained the past and current situation of the citrus planting materials. NGAs said that there are some clones in the MSNs which are not marketable varieties and the nursery growers are not taking/using bud wood of those trees. This year all citrus nurseries have been screened based on the marketable varieties. The non-commercial clones have been replaced with the highly recommended varieties based on the nursery growers and the field officers requests. Almost 450 plants of the best and NGAs select varieties have been planted in the citrus mother stock nurseries. ANHDO will continue the research on new varieties of citrus and will introduce the best marketable varieties to ANNGO and the MSNs will be updated accordingly. So finally the MSNs will have only the best commercial varieties. 19/03/2014-Kabul Meeting with ANNGO staff and RI for Field Officers. The field officers will be provided new contracts by RI in the month of April 2014. 23/03/2014-Kabul Arranging MSNs list for BTL. 24/03/2014-Kabul Meeting with Card-F for purchase of ornamental saplings for planting in schools, RI and BTL for leaves sample collection from MSNs and orchards 25/03/2014-Kabul Worked with Database for MSNs list improvement Meeting with Concern for partnership and joint activities in the north east of Afghanistan. 29/03/2014-Kabul Purchasing pruning tools for NGAs 31/03/2014-Kabul Neeting with NILP DATA-BASE & DATA PROCESSING MANAGEMENT Date / location Purchasing pruning tools for NGAs 31/03/2014/Kabul With ANNGO visibility big Banners for four entrance door of Kabul		projects and organizations to provide and guarantee such
